

Ahmed Mohamed

Computer Science student with a strong foundation in programming, problem solving, and software development. Skilled in C++, Java, OOP, Data Structures, Algorithms, and SQL. Interested in Artificial Intelligence, Machine Learning, and AI model evaluation. Strong analytical thinker with attention to detail and ability to research, evaluate, and solve complex problems.

INTERNSHIP & ACADEMIC PROJECTS

Website Uptime Monitor

Jan 2025 - Apr 2025

- Built automated website monitoring workflow.
- Created real-time notification system using Telegram Bot
- Deployed automation using Docker containers.

AWS Cloud Labs

Mar 2026 - May 2026

- Created and managed AWS cloud resources.
- Configured storage and database services.
- Performed hands-on cloud administration tasks.

University Management System

Feb 2024 - Mar 2024

- Implemented relational database tables and constraints.
- Designed ERD for university system.
- Created SQL queries, joins, views and reports.

Java Desktop Application

Oct 2025 - Dec 2025

- Implemented event handling and application logic.
- Developed desktop application using Java and OOP concepts.
- Designed graphical user interfaces using Scene Builder.

Network Lab Project

Nov 2024 - Jan 2025

- Configured basic network topology.
- Applied IP addressing and connectivity testing.
- Practiced networking concepts and troubleshooting.

Educational Background

Bachelor of Science and Information

Menoufia University

Sep 2023 - present

General Secondary Certificate

El-Batanon Developed Secondary School

Sep 2020 - May 2023

- Mathematics and Science Track

Contact

Shebin Elkom, Menoufia

Skills

Technical Skills

- C++ & Pathon & SQL & Java
- Object-Oriented Programming
- Data Structures & Algorithms
- Problem Solving & Database
- Software Engineering

Tools

- Git & GitHub
- Docker & VS Code
- Linux Terminal
- AWS Services

Languages

- Arabic (Native)
- English (Very Good)

Courses

- AWS Cloud Fundamentals
- Object-Oriented Programming with Java.
- Web Development (HTML, CSS, JavaScript)
- Linux & Docker Fundamentals

Soft Skills

- Analytical Thinking
- Problem Solving
- Attention to Detail
- Research Skills
- Quality Evaluation
- Time Management
- Self Learning
- Critical Thinking
